CLASSROOM ENRICHMENT AND PROFESSIONAL DEVELOPMENT

Opportunities for SFUSD Teachers

Scientist-Teacher Partnerships

Through this program, teachers have the unique opportunity to work with 1-4 UCSF volunteers to co-design and co-teach 3 creative, hands-on

lessons for their students.

STEM Storytime (K-5)

STEM Storytime is a one time interaction with SFUSD teachers and students.

Have UCSF volunteers read a selected STEM picture book, do a related science activity, then host a brief Q&A with your students.

Daly Resource Center

SEP's free lending library, the Daly Ralston Resource Center, houses over 4,000 science and health-related materials for use in any SFUSD school. Our collection includes organ specimens, models, books, lesson kits, and other scientific equipment.

CSP Summer Institute (5th Grade)

This year's summer institute will take a deep dive into one of the Amplify Science units for 5th grade level: **Modeling Matter**. Learn more about the science unit amongst 20-30 grade-level colleagues during this 2-day institute, organized by UCSF SEP and taught by SFUSD 5th Grade Teachers.

Upcoming Infosessions

- Wednesday, 9/28 at 4:00PM - 4:30PM
- Tuesday, 10/4 at 4:00PM - 4:30PM
